A Commemoration
AUGUST 18, 2010 • 6:30 - 8:00 PM

August 18, 1955, marked the beginning of torrential downpours from hurricanes Connie and Diane — events that would lead to the largest flood disaster ever to hit the Delaware River, changing life in the Delaware Valley forever.

August 18, 2010, we gather to remember, share stories, reflect and learn.

55th Anniversary of the Flood of 1955

FLOOD EXHIBITS and ACTIVITIES by Nurture Nature Center as part of the Delaware River Basin Flood Awareness and Safety Campaign.

SHARE YOUR FLOOD STORIES and PHOTOS As part of an ongoing project with the National Weather Service and the National Oceanic and Atmospheric Administration, the Nurture Nature Foundation is gathering photographs and stories of historic and recent flooding in the region. Please bring any photographs or stories you wish to share with other attendees this evening or as part of our museum.

To learn more about the Nurture Nature Center’s Flood Project, visit www.nurturenaturecenter.org or for more information about this event, call NNC at 610-253-4432.

Nurture Nature Foundation is developing the Nurture Nature Center in historic downtown Easton, Pennsylvania which will include exhibits and programs focused on flooding and other concerns associated with living waterways. The Center will be a place for science, education, dialogue and involvement in the critical water resource issues facing the places people live. NNF is offering this Golden Anniversary Commemoration event as part of a Flood Awareness and Safety Campaign with National Weather Service to promote the use of flood alerts that are vital to helping individuals, families and communities to prepare for coming flood events. For more information about flood preparedness and flood alerts, visit www.focusonfloods.org
